Hi Learning and Development Team,

This is Vinodh from the Litehouse team. I did take a three day training program on 'R Programming' last week. This session was one of the best sessions that have ever had in 'Harman/ STC/ Aditi'. The trainer was knowledgeable and willing to share as much knowledge as he can. He gave real examples, and insights that were of great help to me. I thank you for setting up this session on 'R Programming'.

The only challenge was that, the three days weren't sufficient to cover all the info on 'R Programming'. The trainer did his best to share as much as he can, in this three days. Time was still a constraint. ☹

As the session was so good, I would like to recommend if there is any 'Advanced R Programming' that we can schedule in the coming weeks/ months? This will help us to get the most out of this R Programming, which is a hot topic in the IT space.

Once again, thank you for the training on 'R Programming'.

Cheers
Vinodh
