| Practical examples are given and been practiced the same and the assignments given to evaluate the learning are good. |
| It's really good. |
| This workshop was new for me, I am happy I learn new technology & I can apply in my job as well. |
| Step by step teaching. |
| Good to do more of assignments - practical experience. |
| Radical way of training with more practical & examples. |
| <i>Your suggestions and remarks for improvements?</i> |
| Need to provide list of S/W so we don't waste time @ start of course. |
| Could have been divided the course into two sections of 3 days each one with basics & another with advanced Angular JS. |
| It might have helped more in we have spent more time on topics. |
| It will be good if more hands on programming or assignment given during training land evaluating the employees Angular JS. |
| Less lengthy, comparison required between different examples. |
